## About Me

Hello! My name is Hanane, I am an aspiring web developer with a unique blend of skills in interactive media design, photography, video, and user experience (UX) design. My mission is to create websites that not only function seamlessly but also engage users visually and emotionally. With a solid foundation in photography and video, I bring a sharp eye for aesthetics and storytelling to my web development projects. My focus on UX design ensures that every website I build is not just visually appealing but also intuitive and user-friendly. By choosing me as your web developer, you're not only getting technical expertise but also a creative mind that understands the power of visuals and user experience in making a lasting impression. Let's collaborate to bring your digital vision to life!
